**Length:** 62 credits

**Purpose:** This curriculum is designed for students who plan to transfer to a college or university for a B.S. or B.A. degree in psychology. Since four-year colleges and universities vary in their course and GPA requirements, students are advised to work closely with their faculty advisors and counseling staff to choose classes. Electives should be chosen carefully to meet the requirements of transfer institutions. The responsibility for proper course selections rests with the student.
